TERRAIN
Polypipe

2019

Polypipe Middle East celebrates 60 years of Terrain in the Middle East.

Terrain is a pioneer in the development of PVC solvent-weld soil and waste pipe systems.

Terrain is known for its engineered, drainage solutions, backed by excellent technical advice and customer service.

Focusing on high-rise projects in the region, Terrain's above and below ground drainage products have been specified on numerous high-profile projects.

2016

Polypipe export efforts recognised with Queens Award win.

2017 - 2018

Polypipe achieves status as a UK Superbrand and recognised supplier of drainage products.
